2017 Annual Campus Security and Fire Safety Report

Police Department 1201 North State Street Rolla, MO 65409
Phone: 573-341-4300

In accordance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act
Greetings:

The Clery Act requires higher education institutions to give timely warnings of crimes that represent a threat to the safety of students or employees, and to make public their campus security policies. It also requires that crime data is collected, reported and disseminated to the campus community and submitted to the Department of Education. The act is intended to provide students and their families with accurate, complete and timely information about safety on campus so that they can make informed decisions. Visit the website to learn more about the Jeanne Clery Act.

In compliance with this act, the Missouri S&T Police Department has produced this report, "Campus Crime and Fire Safety Report", which contains the aforementioned information. Compliance with these provisions does not constitute a violation of the Family Educational Rights and Privacy Act of 1974 (FERPA). Campus crime statistics include crimes reported to the Missouri S&T Police Department, designated campus officials, and local law enforcement agencies. In addition to campus crime statistics, this report also is a resource guide for campus safety services, crime prevention strategies, as well as fire safety information and fires reported by campus residence halls. Upon completion of the report, students, faculty, and staff are notified of its availability through the e-connection and provided with the website were the report can be accessed.

Copies of the report may be obtained at the Missouri S&T Police Department.

We hope this publication proves helpful, informative, and provides an opportunity for communication between the Missouri S&T Police Department and the community which it serves.

Sincerely,

Doug Roberts

Chapter 172.350 of the Missouri Revised Statutes grants Missouri S&T Police Officers the power to maintain order, preserve peace, and make arrests as now held by peace officers, and with the further power to expel from the public buildings, campuses, grounds, and farms persons violating the rules and regulations prescribed by the Board of Curators of the University of Missouri. Additionally, all sworn members of the department also hold police officer commissions with the City of Rolla Police Department. All sworn members are required to be licensed by the Missouri Department of Public Safety’s Peace Officers Standards and Training Program. Therefore Missouri S&T Police Officers have complete authority to apprehend and arrest anyone involved in an illegal act on-campus and within the city limits of Rolla.

In the case of a major offense, such as rape, murder, aggravated assault, and robbery, Missouri S&T Police Department may choose to handle the investigation or request the assistance of another law enforcement agency such as the Missouri State Highway Patrol, City of Rolla Police Department, or Phelps County Sheriff’s Department. The department however does not have any written agreement with any of the other local law enforcement agencies regarding the investigation of criminal incidents. The prosecutions of criminal offenses are processed by either the City of Rolla Prosecuting Attorney’s Office or the Phelps County Prosecuting Attorney’s Office. In cases involving minor offenses by students, the campus police may also refer the individual to the Office of the Vice Chancellor of Student Affairs. Missouri S&T Police Department officers can and do respond to student related incidents that occur in close proximity to campus. Through coordination with local law enforcement agencies, criminal activity engaged in by students at off campus locations may be reported to the Office of the Vice Chancellor of Student Affairs for any action or follow-up that may be required.

Campus Police personnel work closely with local, state, and federal law enforcement agencies. All 911 calls for Phelps County are answered by the City of Rolla Police Department’s Central Dispatch Center, which handles dispatching services for the Missouri S&T Police Department. Missouri S&T Police Officers have direct radio communication with City of Rolla Police Officers. Police personnel can access the National Crime Information Computer system (NCIC), the Missouri Uniform Law Enforcement System (MULES), and other law enforcement databases. These databases are used for accessing criminal history data, nationwide police records, driver/vehicle identification information, as well as other local, state, and federal law enforcement information.
MISSION STATEMENT

The mission of the Missouri S&T Police Department is to support the campus community in fulfilling its commitment to teaching, research, and service by providing a safe and secure environment for students, faculty, staff, and visitors in partnership with all members of the campus community.

VALUES

The members of the Missouri S&T Police Department adhere to the following values:

M. I. N. E. R.

Making a difference: We are proud of our profession and committed to making a difference.

Integrity: We will hold ourselves to the highest legal, moral and ethical standards.

Neighborhood: We will partner with the university neighborhood in order to jointly resolve concerns.

Excellence: We will strive for personal and professional excellence.

Respect: We will ensure that all persons are treated with equality, courtesy, and compassion.
Clery Geography

The Clery Act requires crime statistics to be broken down according to the geographic location where the offense occurred. These locations are defined as Missouri S&T’s “Clery Geography.” The Clery Act divides Missouri S&T’s Clery Geography into four categories: On-Campus Property, On-Campus Student Housing Facilities (a sub-set of On-Campus Property), Public Property, and Non-Campus Property.

**On-Campus Property.** On-Campus Property includes any building or property owned or controlled by Missouri S&T within the same reasonably contiguous geographic area and used by Missouri S&T in direct support of, or in a manner related to, its educational purposes, including residence halls. On-Campus Property also includes any building or property that is within or reasonably contiguous to Missouri S&T’s other On-Campus Property that is owned by Missouri S&T but controlled by another person or entity, is frequently used by students, and supports Missouri S&T’s institutional purposes.
**On-Campus Student Housing Facilities.** On-Campus Student Housing Facilities include any dormitory or other residential facility for students that is located on Missouri S&T’s On-Campus Property. Missouri S&T’s On-Campus Student Housing Facilities are part of Missouri S&T’s On-Campus Property, but the Clery Act requires Missouri S&T to separately disclose statistics for the total number of crimes that occurred on its On-Campus Property, including On-Campus Student Housing Facilities, and the number of crimes that occurred in On-Campus Student Housing Facilities as a subset of the total.

Missouri S&T’s On-Campus Student Housing Facilities include property that is owned and controlled by Missouri S&T; property that is owned by Missouri S&T and managed by a third party; and property owned by Missouri S&T and leased to officially-recognized student organizations. Missouri S&T’s On-Campus Student Housing Facilities for the years included in this report are:

**Public Property.** For Clery purposes, Missouri S&T's Public Property includes all public property, including thoroughfares (such as public bike paths or walking trails), streets, sidewalks, and parking facilities, that is within Missouri S&T's On-Campus Property or immediately adjacent to and accessible from Missouri S&T's On-Campus Property. Generally, Missouri S&T's Public Property includes any public sidewalk that borders Missouri S&T's On-Campus Property, the public street along the sidewalk, and the public sidewalk on the other side of the street. It also includes public trails or parks immediately adjacent to Missouri S&T’s On-Campus Property. Major roadways through the Missouri S&T On-Campus Property are considered Public Property because they are not controlled and maintained by Missouri S&T.

**Non-Campus Property.** The final category of Clery Act property is Non-Campus Property. Non-Campus Property includes any building or property owned or controlled by a student organization that is officially recognized by Missouri S&T. It also includes any building or property owned or controlled by Missouri S&T that is not reasonably geographically contiguous with Missouri S&T’s On-Campus Property, used in direct support of or in relation to educational purposes, and is frequently used by students. Non-Campus Property does not include all properties owned or controlled by Missouri S&T. Properties that are not used in direct support of or in relation to educational purposes or frequently used by students are excluded from Missouri S&T’s Non-Campus Property and from Missouri S&T statistical disclosures.

The following is a list of Missouri S&T’s Non-Campus Property for the years included in this Report. For property owned by Missouri S&T, the Clery Act requires Missouri S&T to disclose statistics only for the portion of the property that is used in direct support of or in relation to educational purposes and frequently used by students. Property that was leased to third parties or used for administrative offices but not frequently used by students is not included in Missouri S&T’s statistical disclosures. For property controlled (but not owned) by Missouri S&T, the Clery Act requires Missouri S&T to disclose statistics only for crimes that occurred when Missouri S&T had control of the property, i.e., the dates and times specified in its lease or other written agreement. Likewise, if Missouri S&T’s written agreement is for part of a building or property, Missouri S&T discloses statistics only for crimes that occurred on the contracted space, as well as any other areas of the property that students or employees must use to access that space.

**Separate Campus.** In addition to breaking down statistics for On-Campus Property, Public Property, and Non-Campus Property, the Clery Act requires Missouri S&T to separately report statistics for any location that qualifies as a Separate Campus. For purposes of the Clery Act, a Separate Campus is a location owned or controlled by Missouri S&T that is not reasonably geographically contiguous with its main campus and that offers an organized program of study, or courses in educational programs leading to a degree, certificate, or other recognized credential.

Missouri S&T’s Global-St. Louis qualifies as a separate campus for Clery purposes. The S&T Global – St. Louis is located at 12837 Flushing Meadows Drive, St. Louis, MO, 63131, and it offers Distance and Continuing Education courses and certificates in a wide variety of topics and skills. S&T Global – St. Louis’s On-Campus Property includes the S&T Global building and parking lot, as well as the green space that separates it from adjoining properties. S&T’s Global campus Public Property consists of the adjacent portions of Flushing Meadows Drive and Hidden Creek Court. S&T Global – St. Louis has no On-Campus Student Housing Facilities or Non-Campus Property.

Missouri S&T PD does not provide police service or investigate crimes at S&T Global. Members of the University community should immediately report any crimes that occur at S&T Global to the City of Town and Country Police Department by calling 911 or the department’s non-emergency number, (314) 737-4600. Crimes also may be reported to Missouri S&T PD at (573) 341-4300, and UMSL PD will forward the report the local law enforcement agency. Because S&T Global – St. Louis is not within Missouri S&T PD’s patrol jurisdiction, Missouri S&T’s crime log does not include crimes reported for S&T Global – St. Louis, and S&T Global has no on-campus housing and is not included in Missouri S&T’s fire log. Missouri S&T’s policies described in this report also apply to students who attend classes at Missouri S&T Global-St. Louis unless otherwise indicated.
**REPORTING OF CRIMINAL ACTIVITY AND OTHER EMERGENCIES**

**Annual Campus Security Report**

The Missouri S&T Police Department has the role of gathering information for, preparation of, and submission of the institution's Annual Campus Security Report. The annual campus security report is reviewed and updated annually as one cohesive document per the requirements of federal law. It is the duty of the Missouri S&T Police Departments’ Chief, or their designee, to gather the required information for and submit the institution’s Annual Campus Security Report prior to set deadlines.

**Campus Security Authorities**

“Campus security authority” is defined as - An official of an institution who has significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline and campus judicial proceedings. An official is defined as any person who has the authority and the duty to take action or respond to particular issues on behalf of the institution. Clery further defines campus security authorities as:

A campus police department or a campus security department of an institution. If your institution has a campus police or security department, those individuals are campus security authorities. A security department can be as small as one person.

Any individual or individuals who have responsibility for campus security but who do not constitute a campus police department or a campus security department (e.g., an individual who is responsible for monitoring the entrance into institutional property). Include individuals who provide security at a campus parking kiosk, monitor access into a campus facility, act as event security or escort students around campus after dark.

Any individual or organization specified in an institution’s statement of campus security policy as an individual or organization to which students and employees should report criminal offenses. If you direct the campus community to report
criminal incidents to anyone or any organization in addition to police or security-related personnel, that individual or organization is a campus security authority.

An official of an institution who has significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline and campus judicial proceedings. An official is defined as any person who has the authority and the duty to take action or respond to particular issues on behalf of the institution.

Examples of individuals who meet the criteria for being campus security authorities include:

A coordinator of Greek affairs.

A dean of students who oversees student housing, a student center or student extracurricular activities.

A director of athletics, a team coach or a faculty advisor to a student group.

A student resident advisor or assistant or a student who monitors access to dormitories.

A physician in a campus health center, a counselor in a campus counseling center or a victim advocate or sexual assault response team in a campus rape crisis center if they are identified by your school as someone to whom crimes should be reported or if they have significant responsibility for student and campus activities. However, if these individuals are not identified as people to whom crimes should be reported or do not have significant responsibility for student and campus activities, they would not be considered CSAs.

Each month The Clery Coordinator sends emails to identified Campus Security Authorities asking them to fill out an online CSA Crime statistics reporting/data gathering form to report their crime statistics.

Twice a year an invitation to a Canvas CSA Training module is sent to all identified CSAs. The training only has to be completed once a year per Clery requirements.

MO S&T’s Campus Security Authorities can also view the Campus Safety and Security Reporting Training documentation, http://www2.ed.gov/admins/lead/safety/handbook.pdf, provided by the Department of Education.
The Clery Coordinator is a member of the police department assigned the responsibility of collecting statistics from Campus Security Authorities and compiling the information received into the Campus Crime Act and Fire safety report.

**Local Law Enforcement**

The Missouri University of Science and Technology Police Department is committed to assisting our campus community; we have concurrent jurisdiction and responsibility to provide professional police service, investigate crimes on all property owned or controlled by the University, and provide educational safety classes to the campus community. Missouri S&T Police also hold a city commission with the local police department. We send request annually for Clery crime statistics to agencies in our Clery geography, inquiring if they have received any reportable offenses not previously shared with the Campus Police.

**Daily Crime Log**

The Missouri S&T Police Department maintains a written, easily understood Daily Crime Log that records, by the date the crime was reported, any crime that occurred on campus, on a non-campus building or property, on public property, or within the patrol jurisdiction of the campus police department and was reported to the department via a Campus Security Authority or another law enforcement agency. This log includes: the nature, date, time, and general location of each crime, and the disposition of the complaint, if known. This log will not include reports made to other agencies. It shall be the duty of Missouri S&T Police Department to prepare this report in a timely manner so the community and media have access to the information.

**Timely Warnings Reports**

The MO S&T Police Department provides timely warnings about reported crimes to the campus community (Faculty, Staff, and Students), in a manner that will aid in the prevention of similar crimes if it is determined that a serious or continuing
threat exists. Departmental supervisors review all reports taken by the department and/or information provided to the department by Campus Security Authorities or Local Police Authorities in a timely manner to determine any offenses that are subject to disclosure in the Annual Campus Security Report and represent a serious or continuing threat to faculty, staff, and students of the campus community. If it is determined that there is a serious or continuing threat, the supervisor, or their designee shall notify the public information officer, or their designee who will send out a media release, mass e-mail, and/or do a web posting of the incident to help prevent similar crimes from happening.

**Emergency Mass Notification**

Upon confirmation of a significant emergency, the Chief of Police, Police Lieutenants or the Director of Communications and or their designee will, will provide immediate notice to appropriate segments of the campus community upon confirmation of a significant emergency, unless such notice would compromise efforts to contain the emergency. Notifications may occur through use of the University’s mass notification service, through the local media, or through other communication channels as appropriate for the emergency. The University’s mass notification service allows for notification through multiple means, including cell phone, email addresses, text messaging.

**Mass Notification Annual Test**

As part of Missouri S&T's Crisis Communication Plan, Missouri S&T tests its mass notification system at least once every semester. The test focuses on the messaging capabilities of the system. When a test has been deemed appropriate, the Emergency Notification System is activated and people enrolled in the system are notified that a test is being performed and there is no immediate emergency. More information about the [University of Missouri System’s Emergency Mass Notification System](#), as well as registration instructions, can be found on the website.

**Emergency Response and Evacuation Procedures**

The university’s [Emergency Management Plan](#) can be found on the website.

The S&T Police Department’s Initial Response under an ‘All Hazard’ plan:
1) In the event of an unanticipated natural or man-made disaster, the first sworn member on the scene will immediately assume the duties of Incident Commander until relieved by a sworn member of higher rank.

2) Uniformed patrol officers will attempt to secure the area by stopping all traffic into the affected area (with the exception of emergency response units).

3) Communications Officer will notify the appropriate medical, fire agencies, and/or additional resources, as indicated by the Incident Commander.

4) The Incident Commander will notify the Chief of Police. The Chief of Police or their designee will determine what parts of the critical incident plan should be initiated and if the Campus Emergency Management Plan needs to be initiated.

5) Assistance from other agencies may be requested and used to provide for command, operations, planning, logistics, and finance/administration of the incident.

6) The Incident Command System (ICS) protocols shall be used when appropriate in natural and man-made disasters. The ICS identifies the Incident Commander, the Command Staff, and the General Staff positions. The ICS also includes functional provisions for command, operations, planning, logistics, and finance/administration.

**Procedures Used to Notify the Campus Community**

In the event of a situation that poses an immediate threat to members of the campus community, the University has various systems in place for communicating information quickly. Some or all of these methods of communication may be activated in the event of emergency notification to all or a segment of campus community. These methods of communication include the Missouri S&T's Mass Notification (Rave Mobile Safety System), The Rave Mobile Safety System send alerts as a phone call, text message and emails. The University will post updates during critical incident on the S&T Alert homepage [http://alert.mst.edu/](http://alert.mst.edu/)
Confirming the Existence of a Significant Emergency or Dangerous Situation and Initiating the Emergency Notification System

The Missouri University of Science and Technology Police Department and/or other campus police officer may become aware of a critical incident or other emergency situation that potentially affects the health and/or safety of the campus community. Generally, campus police officer become aware of these situations when they are reported to the Police Dispatch Recorder or upon discovery during patrol or other assignments. Once campus police officer confirm that there is, in fact, an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the campus community, the campus police will notify the on duty or on-call lieutenant, Chief of Police or a member of the S&T Communication Department to issue an emergency notification. The University’s authorized representatives will immediately initiate all or some portions of the University’s emergency notification system. If, in the professional judgment of police officer, issuing a notification potentially compromises efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency, the University may elect to delay issuing an emergency notification. As soon as the condition that may compromise efforts is no longer present, the University will issue the emergency notification to the campus community.

Determining the Appropriate Segment or Segments of the Campus Community to Receive an Emergency Notification

University and/or campus police officer on the scene of a critical incident or dangerous situation will assist those preparing the emergency notification with determining what segment or segments of the University community should receive the notification. Generally, campus community members in the immediate area of the dangerous situation (i.e. the building, adjacent buildings, or surrounding area) will receive the emergency notification first. The University may issue subsequent notifications to a wider group of community members. In addition to the emergency notification that may be issued via the University mass notification system, the University will also post applicable messages about the dangerous condition on the http://alert.mst.edu/ homepage to ensure the rest of the campus is aware of the situation and the steps they should take to maintain personal and campus safety. If the emergency affects a significant portion of the entire campus, University officials will distribute the notification to the entire campus community.
Determining the Contents of the Emergency Notification

The S&T Police or the S&T Communications responsible for issuing the emergency notification (usually the senior supervisor) will, in concert with University and the on scene campus police officer, determine the contents of the notification. The goal is to ensure individuals are aware of the situation and that they know the steps to take to safeguard their personal and community safety.

Procedures for Disseminating Emergency Information to the Greater Community

If there is an emergency condition on university property that may endanger the surrounding community the campus police office will notify dispatch who will notify local city and county departments by radio and telephone and inform them of the current situation and actions be undertaken by the university.

Enrolling in the University’s Emergency Notification System

We encourage members of the campus community to enroll in the S&T Alert system by visiting http://mstalert.com/signup/ We encourage University community members to regularly update their information at the same site.

Notice on Non-Retaliation Policy

An institution, or an officer, employee, or agent of an institution, may not retaliate, intimidate, threaten, coerce, or otherwise discriminate against any individual for exercising their rights under the Clery Act.

Crime Reporting

Students, faculty, staff, and visitors are encouraged to report all crimes and public safety related incidents in a timely manner to the Missouri S&T Police Department. The Missouri S&T Police Department is the primary agency for reporting and investigating all crimes that occur on university property. Any instances of criminal or suspicious acts and emergencies occurring on the campus, including residence halls, should be reported to the Missouri S&T Police Department regardless of how seemingly insignificant the crime.
The Missouri S&T Police Department is located at 1201 North State Street G-10 Campus Support Facility Building. The S&T Police Department be contacted by telephone, emergency phone or in person. Emergency phones are located across campus. The non-emergency phone numbers is (573) 341-4300. The emergency number is 911. If dialing 911, the initial call will go to the City of Rolla Police Department’s Central Communications. The Rolla Police Department’s Central Communication is the dispatching center for all public safety agencies in Phelps County which includes the Missouri S&T Police Department. Officers will respond as quickly as possible to any request for assistance, whether it is an emergency or not. Response time is based on current activity load and the urgency of the call. Crimes in progress, traffic accidents and medical emergencies have a higher priority than other types of calls.

In all instances of criminal activity, the Missouri S&T Police Department works to determine the exact nature and perpetrator(s) of the crime for the purposes of developing a viable case to be forwarded to the City of Rolla Prosecutor's Office or the Phelps County Prosecutor's Office for prosecution. In some cases offense reports will also be forwarded to the department of student affairs for adjudication through the campus disciplinary process. Statistics for cases forwarded to student affairs that are offenses pursuant to The Jeanne Clery Act will appear in this report. Additionally, the Missouri S&T Police Department reports crime statistics to the Missouri State Highway Patrol for inclusion in the Uniform Crime Report published by the Federal Bureau of Investigation.

**Crimes Involving Student Organizations at Off-Campus Locations**

The Missouri University of Science and Technology relies on its close working relationships with local law enforcement agencies to receive information about incidents involving Missouri University of Science and Technology students and recognized student organizations, on and off campus. In coordination with local law enforcement agencies, the Missouri University of Science and Technology
will actively investigate certain crimes occurring on or near campus. If the University Police learns of criminal activity involving students or student organizations, it will coordinate with the appropriate external law enforcement agency to forward information about the situation to the Office of Student Conduct, as appropriate.

The University encourages all recognized student organizations to abide by federal, state, and local laws, and University regulations. The University will generally be limited to conduct which occurs on the Missouri University of Science and Technology premises or at University-sponsored or University-supervised functions. However, the University may take appropriate action, including, but not limited to the imposition of sanctions under Sections 200.020 and 200.025 of the Collected Rules and Regulations against students for conduct occurring in other settings, including off campus, in order to protect the physical safety of students, faculty, staff, and visitors or if there are effects of the conduct that interfere with or limit students’ ability to participate in or benefit from the University’s educational programs and activities.

**Voluntary Confidential Reporting System**

The university does not have a voluntary confidential reporting system for annual crime statistics. There are some very good reasons, in addition to prosecuting criminal activity, to promptly report crime. Timely notification about certain types of crime may affect the safety of others. These crimes include murder, rape, sexual assault, burglary, robbery, motor vehicle theft and arson. When you make your report, you assist Missouri S&T Police Department in maintaining accurate records of the incidence of crime on campus. This information helps to keep the campus safe by providing the most accurate information on criminal activity to members of the campus community.
Policy Statement

Every student residing in on-campus housing shall have the option to identify a confidential individual to be contacted by the University in the event that the student is determined missing in accordance with the S&T Missing Student Notification Protocol. Only authorized campus officials and law enforcement officers in furtherance of a missing person investigation shall have access to this information.

Crime Prevention Programs

The Missouri S&T Police Department has a crime prevention officer that provides educational programming and other crime prevention functions to the university community. The crime prevention officer educates the members of the university community about safety. Periodically during the academic year the Crime Prevention Officer and other members of the Missouri S&T Police Department present crime prevention awareness sessions. A common theme of all the awareness and crime prevention programs is to encourage students and employees to be aware of their responsibility for their own security and the security of others. Knowing how to protect yourself and being aware of your environment are the best ways to prevent becoming a victim. The Missouri S&T Police Department offers several programs centered on preventing crimes. All programs are free to anyone affiliated with the university and include:

**R.A.D.** (Rape Aggression Defense): A comprehensive course that covers awareness, prevention, avoidance and hands on defense training.

**RTBAV** (Refuse to be a Victim): A National Rifle Association program that teaches the tips and techniques you need to be alerted to dangerous situations and to avoid becoming a victim.

**Personal Safety:** General overview of individual safety tips and concerns.

**Alcohol/Drug Awareness:** Risks and impact of alcohol and drug abuse.

**Operation ID:** Department provided engraver for marking personal property.

Your Role in Crime Prevention

A secure environment is made possible through community involvement in crime prevention. The purpose of community crime prevention is simple: to help you recognize your own vulnerability to crime, and reduce your risk through preventive action and cooperation with the police. A high percentage of campus crimes are incidents of opportunity. Often campus community members contribute to situational crimes by needlessly placing themselves or their property at risk. Crime will occur wherever there is opportunity, but prevention efforts can be effective in reducing these opportunities.

You play an essential role in crime prevention efforts. Be cautious, careful, and alert to your own safety; protect your possessions and university property.

Theft is the most common crime on the Rolla campus. Most thefts occur during the daylight hours, and thieves enter the structure without forced entry. In your residence, living group or office, exchange information about your schedule and watch your neighbors’ rooms and work areas.

Security at Non-residential Buildings

Most non-residential campus buildings and facilities are accessible to members of the campus community and guests and visitors during normal hours of business, Monday - Friday, and for limited designated hours on Saturday and Sundays. Access times will vary depending upon the nature of the building and activity. Except for those students, faculty and staff with keys or appropriately authorized access cards, access is generally restricted to university-affiliated personnel during recognized holidays.
It is the policy of the Missouri S&T Police Department that after normal working hours, all buildings should be locked to maintain security of the buildings and their contents. Faculty, students and staff members may be issued keys to university buildings upon recommendation of the department chairman or administrative head, in accordance with established procedures. Keys are issued for entry to university buildings for conducting university business only.

Security at Residence Halls

All university residence halls have a 24-hour security program which includes locking the exterior doors at midnight. Residents can protect themselves and their property by making responsible decisions. Unescorted persons should not be given access to residence hall after hours; residents can access their own halls after hours by using their student key. Doors should not be propped open at any time. The names and telephone numbers and locations of on-call student staff are posted in the residence halls; each resident should locate this information in advance of an emergency. Keeping every room door locked at all times will deter crime, as almost every theft in a residence hall is a result of an unsecured room or unattended belongings. Every security measure taken by the residence hall staff depends on the responsible actions of each resident for its effectiveness.

Other tips for your security include:

- Ask strangers to wait in common areas while their friends are summoned.
- Lock your room door and windows when you leave, even if only for a minute, and take your keys with you.
- Keep small valuable items out of sight, in a closed drawer, or another safe place.
- Politely offer assistance to persons in your building or residence you do not recognize. If they have legitimate business, they will appreciate your help. If they do not, ask them to leave.
- Keep your room locked when you are out during move-in. Do not leave your car unlocked when loading or unloading.
• Do not leave coats, books, or other valuable items in common areas. Keep them in your room.

• If you hear or see something suspicious, call the police immediately.

**Maintenance and Security of Campus Facilities**

Landscaping and outdoor lighting on campus are surveyed and modified for pedestrian safety and security. Campus grounds personnel trim shrubs from sidewalks, walkways, and building entrances to enhance lighting and visibility. Campus walkways are inspected regularly to ensure adequate lighting and replacement of burned-out lights. Many campus emergency telephones follow major walkways. Maps showing walkways and emergency telephones are available at the Missouri S&T Police Department and online at [http://police.mst.edu/media/campussupport/police/documents/EmergencyPhones.pdf](http://police.mst.edu/media/campussupport/police/documents/EmergencyPhones.pdf)

Security Officers employed by the Missouri S&T Police Department lock interior and exterior doors on campus buildings each evening. These security officers also report door, light and security hardware operating deficiencies.

Campus Services Officers employed by the Missouri S&T Police Department lock exterior doors on campus buildings. Each evening. These campus service officer also report door, light and security hardware operating deficiencies.

**Safety Escorts**

Whether you are a student, faculty, staff, or visitor there may be times that you find yourself on campus at night. Rather than walking alone to your car or residence hall you can call the Missouri S&T Police Department at (573) 341-4300 to request an escort to your campus destination. Your escort will be a member of the Missouri S&T Police Department and in department uniform.
Warning signs of Abusive Behavior Past Abuse

An abuser may say, "I hit someone in the past, but she made me do it." An abusive person who minimizes what happened with a previous partner is likely to be violent with their current partner. Abusive behavior does not just go away; long-term counseling and a sincere desire to change are necessary.

Threats of violence or abuse
Threats can involve anything that is meant to control the victim. For example, "I'll tell your parents about your drug use if you don't do what I want." Healthy relationships do not involve threats, but an abusive person will try to excuse this behavior by saying that "everybody talks like that."

Breaking objects
An abuser may break things, beat on tables or walls or throw objects around or near the victim. This behavior terrorizes the victim and can send the message that physical abuse is the next step.

Use of force during an argument
An abuser may use force during arguments, including holding the victim down, physically restraining the victim from leaving the room, and pushing and shoving. For example, an abuser may hold a victim against the wall and say, "You're going to listen to me."

Jealousy
An abuser will say that jealousy is a sign of love. In reality, jealousy has nothing to do with love. It is a sign of insecurity and possessiveness. An abuser may question the victim about whom they talk to or be jealous of time spent with other people. As the jealousy progresses, the abuser will call the victim frequently, stop by unexpectedly or monitor the victim's activities.

Controlling behavior
An abuser will claim that controlling behavior is out of concern for the victim's welfare. They will be angry if the victim is late and will frequently interrogate the victim. As this behavior gets worse, the abuser will control the victim's appearance and activities.
Quick involvement
An abuser will often pressure someone to make a commitment after a very short amount of time. The abuser comes on quickly, claiming "love at first sight," and will tell the victim flattering things such as "You're the only person I could ever love."

Unrealistic expectations
The abuser is dependent on the victim for everything and expects perfection. The victim is expected to take care of everything for the abuser, particularly all emotional support. The abuser will say things like, "You're the only person I need in my life."

Isolation
The abuser will attempt to diminish and destroy the victim's support system. If a female victim has male friends, she is accused of being a "whore." If she has female friends, she is accused of being a "lesbian." If she is close to her family, she is accused of being "tied to the apron strings." The abuser will accuse people who are close to the victim of "causing trouble."

Blames others for problems
Abusers will rarely admit to the part they play in causing a problem. He or she will blame the victim for almost anything that goes wrong.

Blames others for their feelings
An abuser will tell the victim, "I hurt you because you made me mad," or "You're hurting me when you don't do what I ask." Blaming the victim is a way of manipulating them and avoiding any responsibility.

Hypersensitivity
An abuser can be easily insulted. The slightest setbacks are seen as personal attacks. An abuser will rage about the everyday difficulties of life as if they are injustices -- such as getting a traffic ticket or not doing well on an exam.

Cruelty to animals or children
An abuser may brutally punish animals or be insensitive to their pain or suffering. Pets can be used to control the victim or to emotionally abuse them.
"Playful" use of force during sex
The abuser may like to hold the victim down during sex. They may want to act out sexual fantasies in which the victim is helpless. An abuser may show little concern about whether the victim wants to have sex and use sulking or anger to manipulate the victim into compliance. They may demand sex or start having sex with the victim when they are sleeping or very intoxicated.

Rigid sex roles
Male abusers often expect women to serve and obey them. They view women as inferior to men and believe that a woman is not a whole person without a relationship with a man.

Jekyll-and-Hyde personality
Explosiveness and mood swings are typical of abusers, and these behaviors are related to other traits such as hypersensitivity. This is not always a sign of mental health problems but may be a way of controlling the victim by being unpredictable.

Bystander Intervention

Bystanders are the largest group of people involved in criminal incidents – they greatly outnumber both the perpetrators and the victims. Bystanders have a range of involvement in incidents. Some know that a specific crime is happening or will happen; some see a crime or potential crime in progress. Regardless of how close to the crime they are, bystanders have the power to stop crimes from occurring and to get help for people who have been victimized. If you find yourself in this situation, follow the below Tips and Options for intervening in a situation potentially involving a crime.

Tips & Options:

• Approach everyone as a friend
• Try to split up the parties involved
• Do not be antagonistic
• Redirect the focus of one person somewhere else
• Avoid using violence
• Be honest and direct whenever possible
• Recruit help if necessary
• Keep yourself safe
• If things get out of hand or become too serious, contact the police
• Speak up when people use racist, sexist, homophobic or other harmful language.

• If you encounter a situation involving a possible Sexual Assault, Domestic Violence, Dating Violence, and or Stalking. The following steps should be taken:

1. Watch out for your friends and fellow students/employees. If you see someone who looks like they could be in trouble or need help, ask if they are ok.
2. Ensure friends who are incapacitated do not leave the party or go to secluded places with another person.
3. Confront people who seclude, hit on, and attempt to make out with, or have sex with people who are incapacitated.
4. Speak up when someone discusses plans to take sexual advantage of another person.
5. Call police when a person is yelling at another and it is not safe for you to intervene.
6. Refuse to leave the area (or call police) if a person is trying to get you to leave so they can take advantage of another.
SEXUAL ASSAULT, DOMESTIC VIOLENCE, DATING VIOLENCE, and STALKING POLICY, PROCEDURES, AND PROGRAMS

Risk Reduction

With no intent to victim blame and recognizing that only rapists are responsible for rape, the following are some strategies to reduce one’s risk of sexual assault or harassment (taken from Rape, Abuse, & Incest National Network, www.rainn.org):

1. **Be aware** of your surroundings. Knowing where you are and who is around you may help you to find a way to get out of a bad situation.
2. **Try to avoid isolated areas.** It is more difficult to get help if no one is around.
3. **Walk with purpose.** Even if you don’t know where you are going, act like you do.
4. **Trust your instincts.** If a situation or location feels unsafe or uncomfortable, it probably isn’t the best place to be.
5. **Try not to load yourself down** with packages or bags as this can make you appear more vulnerable.
6. **Make sure your cell phone is with you** and charged and that you have cab money.
7. **Don't allow yourself to be isolated** with someone you don’t trust or someone you don’t know.
8. **Avoid putting music headphones in both ears** so that you can be more aware of your surroundings, especially if you are walking alone.
9. **When you go to a social gathering, go with a group of friends.** Arrive together, check in with each other throughout the evening, and leave together. Knowing where you are and who is around you may help you to find a way out of a bad situation.
10. **Trust your instincts.** If you feel unsafe in any situation, go with your gut. If you see something suspicious, contact law enforcement immediately (local authorities can be reached by calling 911 in most areas of the U.S.).
11. **Don't leave your drink unattended** while talking, dancing, using the restroom, or making a phone call. If you’ve left your drink alone, just get a new one.
12. **Don't accept drinks from people you don't know or trust.** If you choose to accept a drink, go with the person to the bar to order it, watch it being poured, and carry it yourself. At parties, don’t drink from the punch bowls or other large containers.
13. **Watch out for your friends, and vice versa.** If a friend seems out of it, is way too intoxicated for the amount of alcohol they’ve had, or is acting out of character, get him or her to a safe place immediately.
14. **If you suspect you or a friend has been drugged, contact law enforcement immediately by calling 911.** Be explicit with doctors so they can give you the correct tests (you will need a urine test and possibly others).

15. **If you need to get out of an uncomfortable or scary situation here are some things that you can try:**
   a. Remember that being in this situation is not your fault. You did not do anything wrong, it is the person who is making you uncomfortable that is to blame.
   b. **Be true to yourself.** Don't feel obligated to do anything you don't want to do. "I don't want to" is always a good enough reason. Do what feels right to you and what you are comfortable with.
   c. **Have a code word with your friends or family** so that if you don't feel comfortable you can call them and communicate your discomfort without the person you are with knowing. Your friends or family can then come to get you or make up an excuse for you to leave.
   d. **Lie.** If you don't want to hurt the person’s feelings it is better to lie and make up a reason to leave than to stay and be uncomfortable, scared, or worse. Some excuses you could use are: needing to take care of a friend or family member, not feeling well, having somewhere else that you need to be, etc.

16. **Try to think of an escape route.** How would you try to get out of the room? Where are the doors? Windows? Are there people around who might be able to help you? Is there an emergency phone nearby?

17. If you and/or the other person have been drinking, you can say that you would rather wait until you both have your full judgment before doing anything you may regret later.

**Sexual Misconduct**

Sexual misconduct as defined in policy 600.020 C3: 1) nonconsensual sexual intercourse; 2) nonconsensual sexual contact involving the sexual touching of the genitals, breast or anus of another person or the nonconsensual sexual touching of another with one’s own genitals whether directly or through the clothing; 3) exposing one’s genitals to another under circumstances in which he or she should reasonably know that his or her conduct is likely to cause affront or alarm; or 4) sexual exploitation.

The University of Missouri System, Standards of Conduct prohibits sexually violent acts, termed “Sexual Misconduct” by the University of Missouri System, which can be crimes as well. Sexual misconduct includes non-consensual sexual intercourse, non-consensual sexual contact, sexual exploitation,
interpersonal relationship violence, sex/gender-based stalking and sexual harassment. While The University of Missouri System utilizes different standards and definitions than the Missouri State Statues, sexual misconduct often overlaps with crimes of rape, sexual assault, sexual harassment, stalking, dating violence and domestic violence. Victims of these behaviors are protected by federal laws, specifically Title IX [https://titleix.mst.edu/], and the Clery Act, which mandates the contents of this report.

It is the policy of the University to notify the campus police department when sexual misconduct occurs, typically without providing identifying information about the incident, unless a victim wishes that information to be shared, or an emergency requires disclosure. Victims have the option to notify the campus police directly, or to be assisted in doing so by campus authorities. If requested, campus officials can facilitate reporting to campus or local law enforcement, but may also respect a victim’s request not to do so. In an effort to reduce the risk of sexual misconduct as well as the crimes of rape, sexual assault, sexual harassment, stalking, dating violence and domestic violence occurring among its students, faculty and staff the Missouri University of Science and Technology utilizes a range of campaigns, strategies and initiatives to provide awareness, educational, risk reduction and prevention programming.

It is the policy of the Missouri University of Science and Technology to offer programming to prevent domestic violence, dating violence, sexual assault (including stranger and known offender assaults) and stalking each year. Educational programs are offered to raise awareness for all incoming students and employees, and are often conducted during new student and new employee orientation and throughout an incoming student’s first semester.

Programs and other campaigns offered throughout the year to all students and employees include strong messages regarding not just awareness, but also primary prevention (including normative messaging, environmental management and bystander intervention), and discuss institutional policies on sexual misconduct as well as the Missouri State Statue definitions of domestic violence, dating violence, sexual assault, stalking and consent in reference to sexual activity.

Programs also offer information on risk reduction that strives to empower victims, how to recognize warning signals and how to avoid potential attacks, and do so without victim-blaming approaches. Throughout the year, ongoing awareness and prevention campaigns are directed to students and employees, including faculty, often taking the form of campaigns, emails, guest speakers and events such as Campus Safety Walk, Social Norms campaign, Bystander campaign, Speak
up/Speak Out, Campus Do’s and Don’ts, Faculty/Staff orientations, Denim Day just to name a few. Bystander engagement is encouraged through safe and positive intervention techniques and by empowering third-party intervention and prevention such as calling for help, using intervention-based apps, identifying allies and/or creating distractions. Bystander empowerment training highlights the need for those who intervene to ensure their own safety in the intervention techniques they choose, and motivates them to intervene as stakeholders in the safety of the community when others might choose to be bystanders.

In the event that sexual misconduct, gender-based violence or the crimes of sexual assault, stalking, dating violence or domestic violence does occur, the Missouri University of Science and Technology takes the matter very seriously. The University employs interim protection measures such as interim suspension and/or no contact orders in any case where a person’s behavior represents a risk of violence, threat, pattern or predation. If a student is accused of sexual misconduct, other gender-based violence or the crimes of rape, sexual assault, sexual harassment, stalking, dating violence or domestic violence, she/he is subject to action in accordance with the institution’s appropriate discrimination and harassment policies. Anyone wishing to officially report such an incident may do so by contacting Human Resources Institutional Equity, Diversity and Inclusion 573-341-7734, Student Affairs 573-341-4292 or the Police Department 573-341-4300. Anyone with knowledge about sexual misconduct or gender-based violence or the crimes of rape, sexual assault, sexual harassment, stalking, dating violence or domestic violence is encouraged to report it immediately.

If you are the victim of sexual misconduct, gender-based violence or the crimes of rape, acquaintance rape, sexual assault, sexual harassment, stalking, dating violence or domestic violence, some or all of these safety suggestions may guide you after an incident has occurred:

1. Go to a safe place and speak with someone you trust. Tell this person what happened. If there is any immediate danger, contact the Police Department at 911. If the offense occurred off campus, the victim may still call Missouri S&T Police Department and receive assistance in notifying the appropriate agency to respond to their location.

2. Consider securing immediate professional support (e.g.: counseling, victim advocacy, medical services, etc.) to assist you in the crisis.

3. If you are on campus during regular business hours, you may go to
Counseling, Disability Support, and Student Wellness, Located at 320 W. 12th Street. Room 204 Norwood Hall 573-341-4211.131 for support and guidance. These are considered confidential resources.

4. For your safety and well-being, immediate medical attention is encouraged. Further, being examined as soon as possible, ideally within 96 hours, is important in the case of rape or sexual assault. The hospital will arrange for a specific medical examination at no charge or can work with you to arrange state reimbursement.

- To preserve evidence, it is recommended that you do not bathe, shower, douche, eat, drink, smoke, brush your teeth, urinate, defecate or change clothes before receiving medical attention. Even if you have already taken any of these actions, you are still encouraged to have prompt medical care, and evidence may still be recoverable.

- Typically, if police are involved or will be involved, they will obtain evidence from the scene, and it is best to leave things undisturbed until their arrival. They will gather bedding, linens or unlaundered clothing and any other pertinent articles that may be used for evidence. It is best to allow police to secure items in evidence containers, but if you are involved in transmission of items of evidence, such as to the hospital, secure them in a clean paper bag or clean sheet, to avoid contamination.

- If you have physical injuries, photograph or have them photographed, with a date stamp on the photo.

- Record the names of any witnesses, and their contact information. This information may be helpful as proof of a crime, to obtain an order of protection or to offer proof of a campus policy violation.

- Try to memorize details (physical description, names, license plate number, car description), or even better, write notes to remind you of details, if you have time and the ability to do so.

- If you obtain external orders of protection (e.g. restraining orders, injunctions, protection from abuse), please notify Missouri S&T Campus Police Department so that those orders can be enforced by the police department.

5. Even after the immediate crisis has passed, consider seeking support from Missouri S&T Counseling Services, 573-341-4211, 320 West 12th Street or contact the S&T Police so they can get you in touch with someone from counseling.
Procedures and Policies

The Missouri S&T Police Department has a policy and procedure in place for handling the prohibited acts of sexual assault, domestic violence, dating violence, and stalking incidents. If you are a victim of any of the aforementioned crimes at this university, your first priority should be to get to a place of safety. You should then obtain the necessary medical treatment. The Missouri S&T Police Department strongly advocates that victims report the incident in a timely manner. Time is a critical factor for evidence collection and preservation.

If you are a victim of any of the above crimes you should go to the Missouri S&T Police Department or call the Missouri S&T Police Department at 911. If the incident occurred off-campus, you may still call the Missouri S&T Police Department. If you choose, the Missouri S&T Police Department will notify the appropriate agency to handle the report. If you choose to call the Missouri S&T Police Department an officer will contact you at the scene of the incident, the hospital, or another location. The S&T Police Officer can provided the victim with a University Wellness Resources Card. This card informs them about Counseling, Disability Support and Student Wellness and the services provided by that department, Dean of Students, Student Affair which provides the victim with campus and off campus resources and a Title IX reference card that explains Title IX if the S&T Police Officer deems it appropriate. The Missouri S&T Police Department complies with all Missouri state statues regarding orders of protection, no contact orders, and restraining orders. These orders can be obtained by contacting the Phelps County Prosecutor’s Office or the Dean of Students office.

For sexual assaults, you should seek medical attention in an emergency room or another medical provider that performs legal sexual assault exams. Local resources are the Phelps County Regional Medical Center, (573) 458-8899 and student health services, (573) 341-4284. To preserve evidence, you should not bathe or change clothes or do any cleaning up in any manner prior to receiving medical assistance.
You should also seek support and assistance from a private physician, friend, relative, or other service. Some local service resources are

Procedure for when the accused is a Student (200.025)

**STEP 1: INITIAL CONTACT**

Institutional Equity, Diversity and Inclusion receives a report about your case from the Complainant, a witness or a mandated reporter. If the Complainant wishes to pursue an investigation, interim remedies may be provided by our office.

**STEP 2: INVESTIGATION**

You may have an advisor of your choice in attendance at all meetings with our office.

You will meet with our Intake Officer and our Investigator for an interview. It will consist of your account of the incident for our records and to clarify any preliminary questions we may have. We will also collect witness names, if any.

Witnesses will be sent outreach so that we may schedule a time to meet with them to assist in the investigation.

Prior to our meeting with you, our office will have met with the Complainant (other party) to discuss their side of the events and the situation. Our office will act as a neutral party during the conversations on all sides. Evidence will be gathered at this time. We will gather as much relevant information as possible from all parties involved.

The Title IX Coordinator will review the evidence and decide whether to move the case to the resolution process.

**ACCUSED NOT FOUND RESPONSIBLE**

If the Title IX Coordinator finds that (you) the Accused could NOT be found responsible by a reasonable person, you will receive a letter explaining that there is not enough information to move forward and that the case has been closed. Complainant may request that the Title IX Coordinator review the case and decision again. If you are found not responsible after review, the investigation process concludes.

**ACCUSED FOUND RESPONSIBLE**

If the Title IX Coordinator finds that (you) the Accused could be found responsible by a reasonable person, then both parties will receive a NOTICE OF CHARGE and the Title IX Coordinator will direct the process to continue.
STEP 3: RESOLUTION PROCESS

Typically, cases are filtered through the informal process, but it is ultimately the parties of the case that decide how to proceed. **You and the Complainant will have the choice from the following three options.**

**INFORMAL RESOLUTION PROCESS**

The Title IX Coordinator or Deputy Coordinator will meet with you and the Complainant and will render a decision.

**CONFLICT RESOLUTION PROCESS**

This process could be mediation or facilitated dialogue between you and the Complainant to come to an agreeable resolution. This process will NOT be used in cases of sexual misconduct or violent behavior of any kind.

**FORMAL RESOLUTION PROCESS**

A hearing date will be set and you will receive a NOTICE OF HEARING. At least two days prior to the hearing, both parties can pick up copies of evidence gathered, names of Hearing Panel members, and the list of witnesses. A three-member Hearing Panel will listen to the case. Witnesses are called, both you and the Complainant are allowed to present, and a decision is rendered.

**POSSIBLE SANCTIONS INCLUDE**

Warning; loss of privileges; housing penalties; educational sanctions; suspension; expulsion

**APPEALS**

You have the right to appeal findings and sanctions based on procedural error, new evidence, or because sanctions don’t fit the severity of the offense.

YOUR RIGHTS

**DO NOT RESPOND TO OUTREACH**

Complainant (you) may choose not to respond to the outreach. If no response is received, a second outreach will be attempted. If you change your mind, you may contact us at any time. However, the longer you wait, the more limited our options may become.

Even if you choose not to pursue a complaint, the university may continue with an investigation when it is necessary to protect the university community and provide a safe and nondiscriminatory environment.

**RESPOND TO OUTREACH**

Responding to our outreach does not mean that you must pursue the complaint. However, appropriate interim remedies may be provided at this time. The Complainant (you) may choose to meet with the Intake Officer and schedule an interview. You may request to remain anonymous.

**STEP 2: INVESTIGATION**

You may have an advisor of your choice in attendance at all meetings with our office.

Witnesses will receive outreach so that we may schedule a time to meet with them to assist in the investigation.

After our meeting with you, the Investigator will meet with the Accused (other party) to discuss their side of the situation. Our office will act as a neutral party during the conversations with both sides. Evidence will be gathered at this time. We will gather as much relevant information as possible from all parties involved.

The Title IX Coordinator will review the investigation and make a summary determination whether a reasonable person could find the Accused responsible for violating University policy.

**ACCUSED COULD NOT FOUND RESPONSIBLE**

The Title IX Coordinator finds that the Accused could NOT be found responsible by a reasonable person. Complainant may request that the Title IX Coordinator review the case and decision again. If the Accused is again found not responsible, the investigation process concludes.

**ACCUSED FOUND RESPONSIBLE**

If the Title IX Coordinator finds that the Accused could be found responsible by a reasonable person, then both parties will receive a NOTICE OF CHARGE and the Title IX Coordinator will direct the process to continue.

Missouri S&T offers several programs to educate the campus community about relationship and sexual assault offenses. Each year there is a sexual assault awareness month with a variety of programs and activities offered during that month. The programs and activities vary from year to year. The Missouri S&T Police Department also offers Rape Aggression Defense (R.A.D) periodically during the calendar year and upon request of an organization or group. High risk behavior can lead to a person becoming a victim of a sexual assault.

Fire Safety and Related Residential Life Policies

The full text of Residential Life policies as well as other important information is available in the Student Guide.

In the residence halls residents’ use or possession of appliances and electronics is restricted by the type, size and number permitted. Permitted appliances and electronics include one compact (2.0 cubic feet or smaller) refrigerator in each bedroom, one microwave (under 1000 watts or .8 cubic feet) in each bedroom, and halogen lamps 22 (bulbs of 300 watts or less and protective wire or glass cover – see below for more information). Coffee makers, popcorn poppers, and hot pots are permitted provided that they operate with an enclosed element.

Student rooms are not equipped to accommodate the electrical and sanitary demands of other forms of cooking, such as George Foreman grills, toasters, or toaster ovens – thus they are prohibited. Other prohibited items include any items with exposed flames or embers, exposed heating elements or present other fire hazards. These prohibited items include but are not limited to space heaters, and multi-headed, plastic-shaded lamps. In the university student apartments and some other university operated apartments additional appliances are permitted.

One of the most common causes of fire in residence halls is from the use of candles and incense. Because of the threat this poses to persons and property we do not allow any possession of any fire or incendiary materials in the residence halls except for smoking materials.

Residents who choose to smoke must smoke outside, at least 15 feet from any door or window, or may use the provided smoking shelter. Smoking is prohibited inside all residential life owned or operated buildings.

Due to implications with and associations of “hookahs” to drug paraphernalia, “hookahs” are not allowed to be used or stored on residential life property.

The use, possession, display or ignition of fireworks or any type of explosive device
is prohibited on university property.

Halogen lamps pose a threat to the safety of the residence halls when cloth, paper, or other flammable items are placed in contact with the halogen bulb. It has been shown that such contact can result in rapid ignition and combustion. Only halogen lamps of 300 watts or less are permitted in Missouri S&T’s campus-approved housing.

All Torchiere-style halogen lamps are required to be fitted with a protective wire or glass shield. Lamps with multiple opposable arms and plastic light covers are not permitted.

Students are expected to take the following precautions when using lamps:

- Never place lamps near combustible items (e.g. curtains, bed linen, window treatments)
- Never drape combustible items over the lamp
- Never leave the lamp on when leaving the room for more than 30 minutes
- Ensure that the lamp will not tip over

Fire Safety Training Programs

Information regarding fire reporting and prevention is reviewed with University Staff and Resident Assistants annually. For the training the Rolla Fire Department trains the Resident Assistants in the proper use of a fire extinguisher. The Resident Director then reviews with each Resident Assistant, building specific information for buildings they will be overseeing sections of. The Resident Assistants then disseminate this information to the tenants of their section during the first meeting of each semester.

Fire Safety Equipment

All residential life facilities are equipped with notification systems that can be initiated by the presence of smoke, heat or via a manual pull station. The initiation of the alarm notifies residents audibly and visually and initiates dispatching of the Missouri S&T Police Department and/or emergency responders if needed. All facilities are
equipped with sprinklers in the hallways. Seventy-eight percent (78%) of the facilities are equipped with sprinkler systems and all facilities will be equipped by 2020. All residential life facilities have fire extinguishers in compliance with the applicable code.

In most cases, residents should not attempt to use the fire safety equipment to extinguish fires. The hoses and extinguishers are designed to be used to either put out very small fires or to clear an exit through a fire. Any person who is found to be tampering with any residence hall fire safety equipment will be considered to be in violation of the residence hall misconduct policy.

Example of tampering with fire safety equipment would include but not be limited to the following:

- Activating a fire alarm when no fire emergency actually exists.
- Using fire hoses or extinguishers at any time other than during a fire emergency.
- Opening a fire extinguisher cabinet at any time other than during a fire emergency.
- Vandalizing any fire safety related equipment.
- Tampering or rendering ineffective any smoke detector or fire alarm equipment.
- Knowingly acting as an accomplice with any person involved in the above mentioned activities.

More specific information about the equipment in each property is enumerated in the following table.

**Fire Alarm Procedures**

Any time a fire alarm is activated all residents are expected to immediately leave the building. The following are some procedures to follow during fire alarms:

1. Once you hear an alarm, immediately prepare to leave the building. If possible first put on a pair of shoes, and if the weather is cold, take along a coat or a blanket.

2. Before opening any doors first use the backside of your hand to feel them for heat. Never open a door that is hot to touch.
3. If a hallway or corridor is partially filled with smoke, crawl with your head about three feet above the floor. Never proceed into a hallway that is entirely filled with smoke.

4. Never attempt to use the elevators. Always exit through the stairs. While using stairs, always stay next to the interior stairwell wall.

5. After you are out of the building, stay clear of all exits and stay at least 50 feet away from the building. If you are aware of any persons who were unable to get out of the building, report this to a residence hall or university staff member.

6. If you cannot leave the building because you are trapped by smoke or fire, you should then enter a resident room, stuff a towel or cloth under the bottom of the door to prevent smoke from entering. You should then drape a sheet or towel from the window as a signal, and close the window.
